-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 28 July 2005.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

**Disposition of Claims**

## **DETAILED ACTION**

### ***Drawings***

The newly submitted drawings are objected to because sheet 1 includes 2 new drawings that are unmarked and unlabeled. Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the examiner does not accept the changes, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

### ***Specification***

The claim reference labels are not in accordance with 37 CFR 121. Claims 5 and 12-16 are not listed in the most recent copy of the claims. These claims are being treated as cancelled claims because the applicant describes them s being so in the applicant arguments filed on 7/28/05. The examiner believes this is a typo, which should be corrected.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) The invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 3738

Claims 1, 2, 10, 17, and 18, are rejected under 35 U.S.C. 102(b) as being anticipated by United States Patent 5,836,948 Zucherman.

In regards to claims 1-2 and 17-18, Zucherman discloses the same invention being a pair of J-shaped supporters each made of titanium and a connector made of titanium both being biocompatible shown in figures 74-78 and described in column 4 on lines 17-27 of Zucherman.

In regards to claim 10, Zucherman discloses the same invention wherein each supporter is formed with through-holes described in column 4 on lines 22-27 of Zucherman.

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 4 is rejected under 35 U.S.C. 103(a) as being unpatentable over United States Patent 5,836,948 Zucherman.

Zucherman discloses the claimed invention comprising a pair of J-shaped supporters each consisting of a shorter supporting part (712) (716) and a posterior supporting part (724) (714). However Zucherman does not specify that the two parts of the supports be spaced apart from each other by a distance ranging from 2 to 4 mm. It would have been an obvious matter of design choice to adjust the support parts of

Art Unit: 3738

Zucherman to be spaced between 2 and 4 millimeters apart, since such a modification would have involved a mere change in the size of a component to match the operation site. A change in size is generally recognized as being within the level of ordinary skill in the art.

### ***Allowable Subject Matter***

Claims 19 and 20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

### ***Response to Arguments***

Applicant's arguments filed 7/28/05 have been fully considered but they are not persuasive. The applicant failed to argue the validity of claims 1, 2, and 4. His arguments were directed towards claims 19 and 20, which were objected to as being dependant upon an allowable claim.

### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
